## **DETAILED ACTION**

### ***Allowable Subject Matter***

**Claims 1-13 and 18-20 allowed.**

The following is a statement of reasons for the indication of allowable subject matter: the prior art of record fail to anticipate or render obvious the following technical features as recited in the highlighted claims:

Referring to claims 1-13, the prior art fails to teach or suggest "A camera comprising: ...a color adjuster including a user interface ambient light detector and an image display mounted on said body adjacent said sensor".

Referring to claims 18-19, the prior art fails to teach or suggest "A method for displaying images on a camera comprising the steps of...wherein modifying further comprises determining a white balance color space vector defining a white balancing of said stored image from said color value to a white point for a predetermined scene illuminant; determining a reverse color space vector originating at said color value and extending opposite said white balance color space vector; and color balancing said copy at a compensation poring located on said reverse color space vector".

Art Unit: 2612

Referring to claim 20, the prior art fails to teach or suggest "A method for displaying images on a camera comprising the steps of ... wherein said modifying further comprises matching said color value to one of a plurality of reference illuminants to provide an assigned reference illuminant, each said reference illuminant having a different correlated color temperature; and color balancing said copy to a neutral point at the correlated color temperature of said assigned reference illuminant to provide a verification image".
